02 PRODUCT DETAIL

Explore Each Solution

Intelligent Invoice Processing

Our Intelligent Invoice Processing (IIP) solution leverages AI to automate invoice management, reducing errors and improving efficiency. By combining Workato's seamless process automation with Evolution AI's advanced data extraction capabilities, we deliver a comprehensive solution that transforms your invoice processing workflow.

Key Features • Invoice capture from multiple sources (email, PDFs, scanned documents) • AI-powered data extraction of key details like vendor, amount, and tax information • Validation & compliance with automated verification and regulatory checks • Seamless integration with ERP and financial systems	Key Benefits • Increased accuracy with AI-powered data extraction • Faster processing with automated workflows • Cost efficiency through reduced manual handling • Compliance with built-in regulatory checks • Scalability to handle growing invoice volumes

03 WHY CLOUDORIZON

Why Choose Cloudorizon?

Our comprehensive approach to automation and integration sets us apart from the competition.

End-to-End Automation Expertise From health checks to full automation implementations, we provide comprehensive solutions for all your integration needs.	AI-Powered Intelligence We leverage best-in-class AI and automation technologies to deliver intelligent, adaptive solutions.
Proven Workato Optimisation We help businesses get the most out of their Workato workspaces and recipes with expert optimisation.	Dedicated Support & Consulting Our trusted team ensures your integration success with dedicated support and expert consulting.

04 GETTING STARTED

Getting Started with Cloudorizon Solutions

Our simple onboarding process makes it easy to implement Cloudorizon's solutions.

1

Discovery

We begin with a thorough assessment of your current systems, processes, and integration needs to identify the right solutions for your business.

2

Implementation

Our expert team configures and implements the selected solutions, ensuring seamless integration with your existing systems and workflows.

3

Ongoing Support

We provide continuous support and optimisation to ensure your solutions evolve with your business needs and deliver maximum value.

GET STARTED

Find the right solution for your business.

From intelligent invoice processing to Workato health checks, optimisation, and dedicated support — Cloudorizon's products help you automate with confidence. Book a demo and we'll help you choose the right fit.
